

CertainTeed  
**FIRESCREEN™**

Shown in Moire Black

**CertainTeed**  
SAINT-GOBAIN

# Wind, rain, sun, snow—and fire protection.

When shielding a home against the ravages of weather isn't enough, you can obtain added protection with Firescreen. Without adding to the cost. Firescreen is a tough Traditional Shingle (three-tab fiber glass shingle) with excellent stability. And when you consider its good looks, it's hard to say which is more attractive—the appearance or the price.

## Protect yourself.

Be sure to ask your roofing contractor for a copy of the CertainTeed product warranty or call the CertainTeed Consumer Hotline at 800-782-8777 to request a copy. We make it easy for you to view our warranties and register your investment online at [www.certainteed.com/warranty](http://www.certainteed.com/warranty).

## A beautiful roof makes a beautiful home.

In addition to our durable three-tab shingles, CertainTeed also offers a complete line of architectural shingles that can transform your home into a warm work of art, gracefully and easily. For more information, ask your contractor or visit us on the web at [www.certainteed.com](http://www.certainteed.com).

## Integrity Roof System.™ Give your home the best protection.

### WinterGuard™

Waterproofing underlayment prevents leaks caused by ice dams and wind-driven rain in vulnerable areas.

### Roofers' Select™

High-performance underlayment is a secondary barrier against leaks for the entire roof.

### Shingles and Accessories

High-quality shingles are covered by one of the best warranties in the business. Accessory products—starter course, and hip and ridge cap shingles—complete your roof from start to finish.

### Ventilation

Proper attic ventilation improves air circulation.

## Roofs are big. Color is important. Choose wisely.

1. **Think big**—View a full-sized shingle, not just a swatch or sample.
2. **Be real**—Look at actual houses where the house/roof color combinations are similar to what you're considering.
3. **Watch the light**—As you look, notice how colors appear under changing light conditions and at various times of day.
4. **Consider the pitch**—Look for roofs with a similar pitch to your own. A roof's pitch affects the way you see its color.
5. **Ask your contractor**—They might be able to point you to a home where they've installed a roof of your style and color.
